

ULTRA-AIR® MODEL 735 REPLACEMENT MOTOR

1 YEAR LIMITED WARRANTY

Septic Solutions® warrants the Ultra-Air® Model 735 replacement electric motor against defects in material and workmanship for one (1) year from the date of purchase.

What is covered

If the motor fails due to a defect in material or workmanship within one year of purchase, Septic Solutions will, at its option, repair or replace the motor with a new or refurbished unit of equal or similar specification. The warranty period does not reset upon repair or replacement and continues from the original purchase date.

What is not covered

This warranty does not cover damage or failure resulting from:

- Accident, misuse, neglect, abuse, or improper installation
- Flooding, sewer backup, or submersion (including brief high-water events)
- Fire or other external causes
- Unauthorized modification, alteration, or repair
- Debris, vibration, shaft imbalance, or failure to maintain the unit
- Operation without a compatible control panel/alarm containing a 5–7 amp breaker (required; absence voids warranty)
- Normal wear

The Ultra-Air Model 735 motor has no built-in thermal or overload protection. It must be installed on a control panel with a 5–7 amp breaker. Failure to do so voids this warranty.

Customer responsibilities

The buyer is responsible for monitoring tank water levels, inspecting and cleaning the shaft of debris every 2–3 months, shutting the unit off if excessive vibration occurs, and performing proper installation and maintenance. Continued operation during high water or with excessive vibration accelerates failure and is not covered.

Shipping and claims

Customer pays shipping to Septic Solutions. Septic Solutions pays return shipping of repaired or replacement motors under warranty (standard carrier and method of our choice; upgrades at customer expense). Contact 217-925-5992 (8:00 am–4:30 pm CST) with proof of purchase before returning any motor. Items returned with no defect, or with damage not covered by this warranty, are subject to return shipping charges paid by the customer. Unclaimed non-covered items may be discarded after 14 days.

Limitations

This warranty is not transferable. Septic Solutions is not liable for labor, freight, consequential damages, downtime, or any other expense. Liability is limited to repair or replacement of the motor. All other warranties, express or implied, including merchantability and fitness for a particular purpose, are disclaimed to the extent permitted by law.

This is an aftermarket replacement motor for Jet and Norweco aerobic systems. Certain operating conditions inherent to those systems can cause premature wear; those conditions are excluded as noted above.
